Your health record and sharing of information

This page provides information about the choices you can make about sharing your health record. Your health record includes your medical history, details about your medication and any allergies you may have. You can now choose whether to share these full medical records.

We use a secure electronic health records systems called SystmOne. With your permission, this system can allow clinicians to share your full record held here with other healthcare services who are providing care for you. These other services will ask your permission to view your record.

Many organisations may use SystmOne including some GP practices, out of hours services, children’s services, community services and some hospitals. Sharing your health record will help us deliver the best level of care for you.

You have two choices which allow you to control how your record is shared. You can change these choices at any time by letting the relevant practice or service know.

Please contact the Patient Experience Team on 0800 279 2535 or capccg.pet@nhs.net if you have any queries.

Please note: if you have previously opted out of sharing your information via the Summary Care Record, you will still need to complete this form with your choices about sharing your health record within SystmOne.

For further details visit www.cambridgeshireandpeterboroughccg.nhs.uk

Sharing OUT – This controls whether your information recorded at this practice or service can be shared with other healthcare services.

Sharing IN – This determines whether or not this practice or service can view information in your record that has been entered by other services who are provdigin care for you, or who may provide care for you in the future.

The choices you would like to make about sharing your health record:
